

AIAA GHS at SMD Symposium

By Tracie Prater

AIAA Greater Huntsville Section once again hosted a booth at the annual Space and Missile Defense Symposium in Huntsville. The symposium is a very large professional development and networking event for those in the military space, civil space, and defense industries. The booth included a flier on the activities of the local section, information on benefits of AIAA membership, and free tote bags, cups, lanyards, and pens. Visitors to the booth could sign up to learn more about AIAA, volunteer with the section, and/or enter a drawing to win a gift card and section coin. The booth was only made possible with the help of 14 volunteers, who set up the booth and staffed it during the 3-day event. We look forward to participating in this event again next August and sharing the work of AIAA GHS in providing professional development and STEM outreach opportunities.
